EXPERIENCE

FEB 2022 – MAR 2023

IT DEVELOPMENT LEAD, POWER COMMERCE ASIA

Collaborate with other software developers, business analysts, product owner and software architects to plan, design, develop, test, and maintain web and mobile apps applications built on micro services technologies and scrum methodology.

MAY 2018 – FEB 2022

ENGINEER, TATA CONSULTANCY SERVICES

Working as an Engineer and assigned to Cargill.

APR 2017 – APR 2018

TECHNICAL ANALYST, CARGILL

When the company decided to restructure in Apr 2017, the position of Application Support Analyst was gone and I joined the new structure as Technical Analyst.

JUN 2016 – APR 2017

APPLICATION SUPPORT ANALYST, CARGILL

After the SAP project was completed, I applied to become an Application Support Analyst. I work as a member of a team to maintain software under Manufacturing IT (MIT) in the APAC region. On a daily basis, I was responsible for taking ownership of trouble tickets, interacting with the end-user to isolate the true nature of the program, and bringing both internal and third-party vendor assets to bear as required to resolve the problem.

JAN 2015 – JUN 2016

SAP COORDINATOR, CARGILL

Acted as SAP Coordinator for SAP Implementation in 2015. Worked closely with the big team to coordinate from Pre-assessment to Go-Live. Here also prepared data migration from Syteline to SAP. Parallel, when it was also asked to create a Weighbridge Software that was integrated with SAP.

In the first semester of 2016, I supported the app like how to use the app, capturing SAP incidents reported by end-users and managing user accounts.

JAN 2011 – DEC 2014

SYSTEM ANALYST AND DEVELOPER, CARGILL

Starting from 2011 until 2014, I focused on maintaining Syteline as System Analyst and Developer at PT. Sorini Agro Asia Corporindo Tbk. For large projects, we were assisted by PT. Mitrasolusi Binadaya [<http://www.ptmb.com/>].

I also created a Weighbridge System and SMS Gateway with Visual Basic, which was integrated into Syteline.

JAN 2010 – DEC 2010

IT SUPERVISOR, PT. SORINI AGRO ASIA CORPORINDO TBK

PT. Wirakencana Adiperdana was acquired by PT. Sorini Agro Asia Corporindo Tbk in 2010 and the Accounting System was migrated to Syteline. I also created a Weighbridge System and SMS Gateway with Visual Basic, which was integrated into Syteline.

OCT 2003 – DEC 2009

IT SUPERVISOR, PT. WIRAKENCANA ADIPERDANA

In 2003, I moved to PT. Wirakencana Adiperdana as IT Supervisor. In this company, I learned about the Accounting System, mail servers, network, and all IT infrastructures.

OCT 2000 – OCT 2003

ANALYST SECTION HEAD, PT. WACHYUNI MANDIRA

In the third year, I was transferred to PT. Wachyuni Mandira. This is part of the Gajah Tunggal Group. In this company, I was promoted to become a System Analyst. The main task to create Functional Design, Flowchart, Test Scenario, Database scheme in which programmers are able to execute coding.

SEP 1998 – OCT 2000

PROGRAMMER, PT. DIPASENA CITRA DARMAJA

Right after I graduated, I started working for PT. Dipasena Citra Darmaja: Programmer. I developed a Payroll, HR System, and Logistic System.
